### **CARATTERISTICHE TECNICHE:**

Certificato conformemente alla norma EN1125

Larghezza massima della porta 1300 mm

Altezza massima della porta 3400 mm (per rispettare la normativa la porta non deve superare i 2270 mm di altezza)

Peso massimo della porta 200 kg

Disponibile in finiture argento e simile inox

Possibilità di apertura dall'esterno con serratura a maniglia

### **TECHNICAL INFORMATION:**

*Certification according to EN1125*

*Maximum door width 1300 mm*

*Maximum door height 3400 mm (to respect the standard, maximum door height 2270 mm)*

*Maximum door weight 200 kg*

*Available finishes: silver and similar stainless steel*

*It is possible to open from the outside by lock with handle*

**KIT PER MANIGLIONE ANTIPANICO TIPOLOGIA "A"**

Con chiusura centrale

Set composto da:

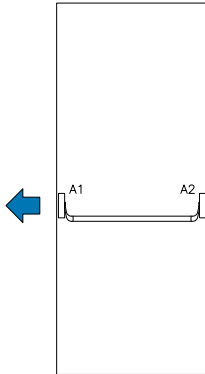

- chiusura ad un punto
- barra orizzontale
- piastre per fissaggio
- serratura esterna (opzionale)

**PANIC HARDWARE "A" TYPOLOGY**

With central closing

Fitted with:

- single-point locking
- horizontal crossbar
- fixing plates
- external lock (optional)

## Serratura "T-LOCK" a scomparsa "T-LOCK" for in-wall lock

NEWS 2014

**GFS**  
Innovate by Design

### Caratteristiche principali Main features

#### **CHIUSURA RAPIDA**

La serratura T-LOCK ha un sistema di aggancio automatico sullo stipite, senza bisogno di azionare nessun dispositivo.

#### **QUICK CLOSING**

*The T-LOCK has a system of automatic coupling on doorpost and doesn't need to actuate any device.*

#### **APERTURA RAPIDA**

Lo sganciamento della serratura T-LOCK è impercettibile, tramite un micromovimento che avviene tirando la porta verso l'apertura.

#### **QUICK OPENING**

*The release of the T-LOCK is imperceptible, through a micro movement that happens pulling the door to open it.*

#### **BLOCCAGGIO ESTERNO**

La serratura T-LOCK può essere bloccata dall'esterno chiudendola con chiave. L'apertura dall'esterno non sarà più possibile, mentre risulta essere sempre azionabile dall'interno.

#### **EXTERNAL LOCKING**

*The T-LOCK can be locked from the outside with the key. Opening from the outside won't be possible anymore, while from the inside will be always possible.*

#### **SICUREZZA**

Per le situazioni di bloccaggio dall'interno, la serratura T-LOCK è dotata di un sistema di sbloccaggio di sicurezza esterno, come previsto dalle normative nei casi di ambienti con un'unica via di accesso.

#### **EMERGENCY**

*In case of internal locking where there is only one way to access, the T-LOCK is equipped with an external safety mechanism, as required by the law.*

#### **COMPLETAMENTE A SCOMPARSA**

Il meccanismo di chiusura miniaturizzato consente di ridurre notevolmente le dimensioni della serratura T-LOCK, permettendo la totale scomparsa della porta all'interno del cassero. La levetta di trascinamento consente poi una facile impugnatura della serratura per riportare la porta verso la chiusura.

#### **IN-WALL LOCK**

*The miniaturized locking mechanism allows to reduce considerably the T-LOCK dimension and let the door disappearing completely inside the wall. The dragging trigger allows a very grip to close the door.*

#### **AUTOREGOLANTE**

Il riscontro sullo stipite ha la capacità di autoregolarsi, seguendo eventuali cali della porta nel tempo.

#### **SELF-ADJUSTABLE**

*The receiver on the doorpost is self-adjustable and adapts automatically to the natural setting of the door.*
