fissaggio a soffitto_binario singolo

Ceiling fastening – single track

Sistema scorrevole:
La gamma si è allargata, rivoluzionando un assortimento inizialmente ridotto e poco flessibile. Oggi, il nuovo sistema permette la realizzazione di diverse soluzioni, comprese porte singole, doppie, motorizzate o manuali. Il sistema di profili rende possibile l'inserimento di ante fisse o mobili senza richiedere ulteriori morsetti di fissaggio, e si adatta a ogni tipo di fissaggi, siano essi superiore, laterale a parete o a vetro. In aggiunta, sono disponibili i vari profili e guarnizioni di copertura sia per il frontale che per il lato inferiore, così da realizzare la completa copertura di tutto il meccanismo scorrevole. Nella serie sono state inoltre inserite diverse cerniere con e senza tacca.

fissaggio a soffitto_binario doppio

Ceiling fastening – double track

Sliding system:
The range has widened, with a giant leap in terms of selection and flexibility. Today's new system allows for several different solutions, including single, double, automated and hand-operated doors. The system of profiles allows for both fixed and mobile panes with no extra clamps, and adjusts to any fixing setting, whether on the upper or lateral side, to walls or glass. Also available are several profiles and strips, both for the front and the lower side, so as to achieve a complete covering of the entire sliding device. The series also includes various hinges with and without slots.

Esempi di soluzioni

Solution examples

singolo (anche motorizzato) - single (also motorized)

Scorrevole singolo con fissaggio a soffitto
Single sliding door with top fixing

Scorrevole singolo con fissaggio a vetro
Single sliding door with fixing on the glass

Scorrevole singolo con fissaggio a parete
Single sliding door with wall fixing

Scorrevole singolo con fissaggio a soffitto e fisso laterale
Single sliding door with top fixing and side fixed glass

doppio (anche motorizzato) - double (also motorized)

Scorrevole doppio con fissaggio a soffitto
Double sliding door with top fixing

Scorrevole doppio con fissaggio a vetro
Double sliding door with fixing on the glass

Scorrevole doppio con fissaggio a parete
Double sliding door with wall fixing

Scorrevole doppio con fissaggio a soffitto e fisso laterale
Double sliding door with top fixing and side fixed glass
